Finance Policy

A. INTRODUCTION

1. The purpose of the Finance Policy is to ensure that Coppice Primary Partnership (CPP) maintains and develops systems of financial control, conforming to the requirements of propriety and good financial management. It is essential that these systems operate properly to meet the regularity requirements of our Master Funding Agreement with the Department for Education (DfE).
2. The trust and each academy comply with the principles of financial control outlined in the latest version of the Academies Trust Handbook published by the DfE.
3. [Academy Trust Handbook 2022](https://assets.publishing.service.gov.uk/media/61018f99e90e0703b58e8c79/Academy_trust_handbook_2022.pdf)
https://assets.publishing.service.gov.uk/media/61018f99e90e0703b58e8c79/Academy_trust_handbook_2022.pdf
This manual expands on that, provides detailed information on the trust's accounting procedures and systems, and should be read by all staff involved with financial matters.
4. Systems and processes outlined in this document also extend to meeting the requirements of both the Companies House and related Company Acts, and Charity Commission as far as it relates to Exempt Charities.

B. ORGANISATION

Coppice Primary Partnership is a Company limited by guarantee with charitable status as an Exempt Charity. The trust has defined the responsibilities of each person involved in the administration of academy finances to avoid the duplication or omission of functions and to provide a framework of accountability for directors and staff. The financial reporting structure is illustrated below:

B.1 MEMBERS

1. The Members of Coppice Primary Partnership are responsible for appointing the Trustees, and will ensure that they appoint a competent Trustee to the Board to complete the functions of monitoring in Finance, Audit, Health & Safety and Compliance.
2. The Members of Coppice Primary Partnership fully delegate the strategic management of the trust and all monitoring functions to the Board of Trustees.
3. The Members fully delegate the completion and submission of the 'Annual 'Trustees Report' to the Board of Trustees on their behalf.
4. The Members will meet annually to:
 - Complete an overview of the effectiveness of the delegated functions.
 - Receive annual accounts and reports

 - All meetings of the Members will be formally minuted and made publicly available.

B.2 BOARD OF TRUSTEES

5. The Board of Trustees has responsibility for the administration of the academy trust's finances as fully delegated by the Members. The main responsibilities of the Board of Trustees are prescribed in the Master Funding Agreement between the academy trust and the DfE and in the academy's scheme of delegation, and the Academies Trust Handbook.

The Trustees have delegated certain responsibilities to Local Governing Bodies and the Trust Leader (Accounting Officer) as detailed in the Scheme of Delegation.

B.3 FINANCE AND AUDIT COMMITTEE

6. The Finance Committee is a sub-committee of the Board of Trustees to which the board delegates financial scrutiny and oversight. The matters delegated to the Finance Committee are detailed in the Scheme of Delegation and Terms of Reference.

15. In such circumstances, the Accounting Officer would be required to put his or her objections in writing to the Board of Trustees and to advise them of the requirement to inform the DfE Accounting Officer (the Permanent Secretary) and the Trusts external auditors, as well as the Controller and Auditor General.
16. Such notification should occur without undue delay, and the Departmental Accounting Officer will need to consider whether to intervene in such cases

43. The disclosures should also include business interests of close relatives and associates such as a parent, child, spouse or business partner where influence could be exerted by that person.
44. The existence of a register of business interests will not, of course, detract from the duties of individuals to declare interests whenever they are relevant to matters being discussed by the Board of Trustees or a Committee.
45. Where an interest has been declared, it will be the decision of those present as to whether the individual should withdraw from the meeting or simply not take part in any discussion or

decision making vote which may be called. This will be recorded clearly in the minutes of the meeting.

I. SCHEME OF DELEGATION / AUTHORISATION LIMITS

I.1 PURCHASING

73. The Trust seeks to achieve the best value for money from all purchases. This means it procures goods & services of the correct quality, quantity and time at the best price possible. A large proportion of their purchases will be paid for with public funds and they need to maintain the integrity of these funds by following the general principles of:
- **Probity**, it must be demonstrable that there is no corruption or private gain involved in the contractual relationships of the academy.
 - **Accountability**, the academy is publicly accountable for its expenditure and the conduct of its affairs.
 - **Fairness**, that all those dealt with by the academy are dealt with on a fair and equitable basis.

I.2 ROUTINE PURCHASING

74. As a general principle, procedures should ensure that purchases are as required and are for bona fide purposes and value for money is obtained in respect of all goods and services.
75. Budget holders will be informed of the budget available to them at the start of the financial year.
76. It is the responsibility of the budget holder to manage the budget and to ensure that the funds available are not overspent.
77. School staff are responsible for making the first request for the purchase of goods or services.
78. Purchase order requests are completed by the requesting member of staff, which are passed to the school finance assistant.
79. A sequentially numbered Purchase Order will then be raised for approval by the Budget Holder or appropriate person in accordance with the delegated financial limits.
80. Where quotes have been sought due to the value of the purchase, all relevant documentation including any received quotes must be attached to the purchase order.
81. No orders should be placed verbally outside of the finance system.
82. In approving the Purchase Order, the Budget Holder will be alerted if there is insufficient budget available to fund the purchase. Headteachers' prior approval is required to complete the purchase order.
83. On receipt of confirmation that the Purchase Order is approved by the Budget Holder or appropriate person, it is sent to the supplier / contractor via email where possible.
84. The academy trust will pay suppliers via BACS and Direct Debit wherever possible.
85. All data relating to financial transactions is held securely and retained for 7 years.

I.3 GOODS RECEIVED AND INVOICING

86. The school finance or trust staff, when placing approved orders with suppliers, must make appropriate arrangements for the delivery of goods to the appropriate school.
87. On receipt, a member of staff must undertake a detailed check of the goods received against the goods received note (GRN) and make a record of any discrepancies between the goods delivered and the GRN. Discrepancies should be discussed with the supplier of the goods without delay. The GRN should be signed by the reviewer to indicate that this has been done.
88. Correct GRN information should be passed to the school finance assistant as soon as possible to enable the invoice to be processed when received. Only in exceptional circumstances will goods or services be paid for in advance and usually, only in respect of a deposit e.g. School trips or residentials.
89. If any goods are rejected or returned to the supplier because they are not as ordered or are of sub-standard quality, the Finance Team should be notified. Any goods returned to suppliers will be noted on the relevant GRN.

90. All invoices should be sent directly to the Trust Finance Team either directly by the supplier or via the School Office which will be checked against the GRN for accuracy. Invoices will be marked for the recording of order and payment details. Invoices in dispute will be marked accordingly to ensure payment is not released.
91. Invoices received will be checked against purchase orders for accuracy by the Trust Finance Team. Where estimates were provided initially invoices will be paid where the discrepancy is less than 10% of the original quotation.
92. The Trust Finance Team will input details of payments to be made to the purchase ledger and generate the BACS payment required.
93. Copy invoices are not to be paid unless checks have been performed to confirm that payment has not previously been made. References back to the original order are to be made in every case. Confirmation that such checks have been made is to be by endorsing the invoice "copy invoice not previously passed for payment" and signing. Under no circumstances are payments to be made against supplier statements.

I.4 ONLINE PURCHASING

94. Online Purchases must be made upon receipt of evidence from the budget holder:
 -
 - Each internet purchase must be accompanied by a printed confirmation sheet detailing products purchased, the date and total cost (including VAT element) to the school.
 - When using a card for internet purchases, card holders must ensure that the internet site is secure and that all companies used are reputable. Never disclose card details on an email as this method of payment is not secure.
 - Details of the Trust's bank accounts should never be provided as a secondary form of payment (for example, creation of a PayPal account) as this carries the risk of fraudulent access to the entire available balance in that account.

I.5 CHARGE CARDS

95. Allocations of charge cards and limits will be approved by the Trust Leader. The list will match the records held by commercial banking with Lloyds Bank at all times.
96. Charge cards will be issued to key individuals to be held securely by them (not in school safe). PIN details should not be stored with the card.
97. Charge Cards are only to be used where payment on account is not available – either due to required timescales or restricted supplier payment options, and card holders will only place orders on receipt of a completed requisition
98. A direct debit will be set up to clear the monthly balance on all cards in full.
99. An approved purchase order is required before a purchase is made. Authorised purchase receipts will be submitted by card users to the school finance assistant (for schools) or Trust finance team (for trust staff) as soon as is practically possible, who will reconcile receipts against the monthly statements and subsequently against the bank direct debit charge.
100. Reconciled monthly charge card statements are to be signed off by the Head Teacher, or in the case of the Head Teacher which will be signed off by the Chief Finance Officer. For Trust staff, it must be signed off by the Trust Leader
101. The Trust Finance Manager will maintain a list of staff who have been issued with cards and their limits.
102. Site staff have a pre-authorised charge card with a financial limit of £250.
103. In the case of an emergency where it would be a breach of duty of care or a health and safety matter, members of staff may complete a purchase using a charge card without prior approval or a personal debit card up to £250.

J. PURCHASE & DISPOSAL LIMITS

J.1 PURCHASES

104. Specific purchase and disposal (write off) limits will be set for all budget holders or those responsible for orders and procurement in the academy.

105. Purchase limits and allocation of charge cards will be documented clearly by the Trust Office. The list will match the records held by commercial banking with Lloyds Bank at all times.

106. Levels of financial authority are:

Order Value	Authorisation Level	Details of approval process and documentation
Up to £1,000	Budget Holders / those with delegated authority	The Budget Holder will only approve the Purchase Order once they are satisfied that the purchase represents best value
£1,001 - £5,000	Head Teacher	Three prices should be sought wherever possible and the Head Teacher will sign to confirm that the selected supplier represents best value. The quotes obtained are to be retained by the Finance Team.
£5,001 - £25,000	Trust Leader	Three prices must be obtained in writing and the Trust Leader will sign to confirm that the selected supplier represents best value. The quotes obtained are to be retained by Finance Team.
£25,001 +	Board of Trustees	Three prices must be obtained in writing and the Head Teacher will present alongside an explanation of how best value is being achieved. The quotes obtained are to be retained, along with minutes of the approval all being provided to the Finance Team attaching to the order and invoice.

107. Within the specified limits there are exceptions to the above:

- Where it is not possible to obtain alternative quotes, this is to be made clear on the purchase order.
- Where incurring the expenditure exceeds the approved budget then the Trust Leader or Head Teacher must approve the order.
- Where budget monitoring demonstrates that there is a risk of overspend, the Head Teacher, Trust Leader or Finance and Audit Committee can introduce a moratorium.

108. Pre-payments for items should not be made. However, there may be exceptional circumstances where a pre-payment is necessary to secure goods or services. Therefore, a pre-payment can be made subject to:

- The person placing the order has attempted to negotiate an alternative such as same day payments or payment on receipt of materials
- Where pre-payments or deposits are being made then appropriate due diligence is carried out by the trust finance team. This includes but not limited to checking companies house to ensure returns are up to date and that there are no suspicious changes of directors. Once the trust team have completed the due diligence process, the pre-payment/deposit will be sent to the CFO/CEO for approval

J.2 DISPOSALS:

109. The Trust must seek approval of the DfE in writing if it proposes to dispose of a freehold of land or buildings, or a 'heritage asset' (as defined in financial reporting standards).

110. Disposal of equipment to staff is not encouraged, as it may be more difficult to evidence the academy obtained value for money in any sale or scrapping of equipment. In addition, there are complications with the disposal of computer equipment, as the academy would need to ensure licenses for software programmes have been legally transferred to the new owner.
111. The Trust is expected to reinvest the proceeds from all asset sales for which capital grant was paid in other Trust assets. If the sale proceeds are not reinvested then the Trust must, if required by the Secretary of State, pay all or part of the proceeds to the DfE or Local Authority taking into account the amount to be reinvested by the Trust.

K. FORMS OF TENDER

112. There are three forms of tender procedure: open, restricted and negotiated. The circumstances in which each procedure should be used are described below.
113. Open Tender: This is where all potential suppliers are invited to tender. The COO must be consulted how best to advertise for suppliers' e.g. general press, trade journals, use an approved framework or to identify all potential suppliers and contact directly if practical. This is the preferred method of tendering, as it is most conducive to competition and the propriety of public funds.
114. Restricted Tender: This is where suppliers are specifically invited to tender. Restricted tenders are appropriate where:
- There is a need to maintain a balance between the contract value and administrative costs
 - A large number of suppliers would come forward or because the nature of the goods are such that only specific suppliers can be expected to supply the academy's requirements.
 - The costs of publicity and advertising are likely to outweigh the potential benefits of open tendering.
115. Negotiated Tender: The terms of the contract may be negotiated with one or more chosen suppliers. This is appropriate in specific circumstances:
- The above methods have resulted in either no or unacceptable tenders.
 - Only one or very few suppliers are available.
 - Extreme urgency exists.
 - Additional deliveries by the existing supplier are justified.

K.1 PREPARATION FOR TENDER

116. Full consideration should be given to:
- Objective of project
 - Overall requirements
 - Technical skills required
 - After sales service requirements
 - Form of contract
 - Price

117. It may be useful after all requirements have been established to rank requirements (e.g. mandatory, desirable and additional) and award marks to suppliers on fulfilment of these requirements to help reach an overall decision.

K.2 INVITATION TO TENDER

118. If a restricted tender is to be used then an invitation to tender must be issued.

119. If an open tender is used an invitation to tender may be issued in response to an initial enquiry.
120. Contracting authorities must follow World Trade Organisation (WTO) agreement on Government Procurement (GPA) process for the tendering of goods and services where the value exceeds the published threshold (As at 1st January 2020 this is £189,330).
121. Tendering for goods and services for contracts where the annual value exceeds £25k should use a framework agreement, whereas those in excess of £50k per annum must use a framework agreement.
122. An invitation to tender should include the following:
- Introduction/background to the project.
 - Scope and objectives of the project.
 - Technical requirements.
 - Implementation of the project.
 - Terms and conditions of tender.
 - Form of response required.

K.3 TENDER ACCEPTANCE PROCEDURES

123. The invitation to tender should state the date and time by which the completed tender document should be received by the academy and to whom it should be addressed.

215. The Trust Finance Manager is responsible for preparing a Trust cash flow statement.

216. Support for this function is facilitated by Bank Reconciliations being completed monthly within the finance system.

217. If significant balances can be foreseen, steps should be taken to invest the extra funds via formal investment.

218. Similar plans should be made to re-profile annual spending plans to cover potential cash shortages.

Q. RESERVES POLICY

219. The Board of Trustees will review the reserve levels of the trust annually following recommendation from the Finance and Audit Committee. The Academy Trust is able to hold two types of reserves:

- Unrestricted Funds which represent those resources that can be used towards meeting any of the charitable objects of the Academy Trust at the discretion of the Trustees e.g. income from Lettings.
- Restricted Funds which comprise the funds received from ESFA, the Local Authority and other organisations which are applied for a specific purpose including the normal running costs of the Trust.

220. This review will encompass the nature of income and expenditure streams, the need to match income with commitments and the nature of the reserves.
221. The Trust Leader needs to consider the level of reserves the academy should hold overall, which is approved by the Board of Trustees.
222. The reserves policy, which is approved by the Finance & Audit Committee:
- Assists in strategic planning by considering how new projects or activities will be funded
 - Informs the budget process by considering whether reserves need to be used during the financial year or built up for future projects
 - Informs the budget and risk management process by identifying any uncertainty in future income streams
223. The Trust Leader identifies:
- When reserves are drawn on, so that Trustees understand the reasons for this and can consider what corrective action, if any, needs to be taken.
224. When considering an appropriate level of reserves, the Trust Leader considers:
- The risk of unforeseen emergency or other unexpected need for funds
 - Covering unforeseen day-to-day operational costs, for example employing temporary staff to cover a long-term sick absence.
 - A fall in a source of income, such as lettings or pupil numbers on roll
 - Planned commitments, or designations, that cannot be met by future income alone, for example plans for a major capital project.
 - The need to fund potential deficits in a cash budget, for example money may need to be spent before a funding grant is received
225. Trustees have agreed that the level of reserves should be 4% of revenue income. This will be reviewed annually as Trustees wish to work towards the prudent approach recommended by the ESFA in that reserves should equal 1 month's salary costs.

The reserves exclude any capital reserves which are for specific projects. In addition, it has been agreed that each school will, as part of the top slicing for Trust overheads, contribute £3k per annum per form of entry, which will provide for a contingency held at Trust level for unforeseen expenditure.

R. INVESTMENT

226. A return on working capital should be optimised whilst allowing easy access of the funds. In balancing risk against return the Trust policy is clearly geared towards avoiding risk than to maximising return.
227. The Trust will operate an interest-bearing current account with a bank approved by the Board and maintain a balance in that account that is sufficient to cover immediate and forthcoming financial commitments (payroll and payment runs) and sufficient contingency for unexpected payments.
228. Monies surplus to the working requirements shall be invested in an account in the name of the Trust with the approved institutions as authorised by the Board. This may be a higher interest bearing account operated by the same bank that the Trust operates its current account with, or an alternative approved institution. The Trust will not take out any long term investments until a reliable cash flow pattern has been established. Monies will only be paid into approved bank deposit accounts allowing access to funds within a term not exceeding three months.

S. FIXED ASSETS

R.1 ASSET REGISTER

229. Each individual academy school will hold and maintain its own asset register for the purposes of supporting insurance claims.

230. All items purchased with a value over the academy's capitalisation limit of £5,000 per item or per project must be entered in a Trust asset register which will be maintained by the Trust Finance Manager. The asset register should include the following information.

- Asset description
- Asset number
- Serial number
- Date of acquisition
- Asset cost
- Source of funding
- Location

231. The Asset Register helps:

- Ensure that staff take responsibility for the safe custody of assets
- Enable independent checks on the safe custody of assets as a deterrent against theft or misuse
- To manage the effective utilisation of assets and to plan for their replacement
- The external auditors to draw conclusions on the annual accounts and the academy's financial system
- Support insurance claims in the event of fire, theft, vandalism or other disasters.

R.2 SECURITY OF ASSETS

232. All the items in the register should be permanently and visibly marked as the academy's property and there should be a regular annual count for all assets with value associated to them by someone other than the person maintaining the register.

233. Discrepancies between the register and the physical assets should be investigated promptly and where significant reported to the Finance and Audit Committee.

234. Additional inventories of academy property should be kept up to date and reviewed regularly for Insurance purposes.

R.3 LOAN OF ASSETS

235. With the exception of academy assets that have been allocated to individual staff (Laptops, i-pads, mobile phones) on no account should academy property be removed from the premises without the prior authority of the Head Teacher or Trust Leader.

236. A record of the loan must be made and returned by the member of staff when no longer required or when they leave the employment of the Academy Trust. Failure to return the equipment or if returned in an unsatisfactory condition then the Academy Trust reserves the right to charge for a replacement.

237. If assets are on loan for extended periods of time or to a single member of staff on a regular basis the situation may give rise to a 'benefit-in-kind' for taxation purposes. Asset loans should therefore be kept under review and any potential benefits discussed with the academy's auditors.

R.4 DEPRECIATION

238. Depreciation is provided on cost or valuation in equal annual instalments over the estimated useful life of the assets.

239. Currently a full year's depreciation is provided for in the year the asset is acquired and nil depreciation in the year of disposal.

240. The rates of depreciation to be adopted are as follows and are applied from the month following purchase:

Type of Asset	Depreciation Term
Computer equipment and software	4 years (25%) from the date of purchase
Inherited buildings	125 years for leasehold or 50 years for freehold.
Plant, equipment, furniture and fittings	5 - 10 years (10%)
Future buildings	50 years (2%)
Leasehold improvements	10 years
